New additions to the site:

- “Meet virtually now” menu was added under the “Meetings” menu
- “IG Webmail Access” menu was added under the “Our Intergroup” menu

The workload has shifted from building the site to site maintenance, specifically the meeting list, events and posts. Both the meeting list and events are specific, but the posts require some discretion from the WebTeam.

A warm shout-out to Nancy H. and Eileen S. for their behind-the-scenes work on the email system and the events, respectively.
