

## WEBTEAM REPORT

The meeting list, both online and PDF, was revised 4 times in August.

---

The website has been backed up off-site again, a cautionary measure.

---

Our Events page is a product of a free plug-in called “Time.ly”. Our free time has expired and in order to continue using it we need to buy the paid version for \$25 a month, payable in one annual fee of \$300. The plug-in has been frozen since August 7th and I am requesting the \$300 payment be approved today so I can clear the backlog.

---

Additionally, if we are 501(c)(3), I will need our tax I.D.

---

A temporary work-around has been put in place to deal with events. It is labor intensive and not sustainable long term.

---
