

## WEBTEAM REPORT

The meeting list, both online and PDF, were revised 3 times in November.

---

The website has been backed up off-site again.

---

The site went down for an undetermined length of time.

Alix and Mike got it up and running within an hour of discovery.

---

The webteam is working on a flyer with tear-off info. For now it will be distributed digitally. Groups can download and print and distribute as they see fit.

---

The webteam and the newsletter team continue to work toward a unified look.
